

INSULATORS

TECHNICAL INFORMATION

VEMER INSULATORS

Insulators designed to be used as supports or spacers of electrical busbars in switchboard construction.

Made of glass fibre reinforced polyester resin they guarantee a high mechanical and electrical resistance. Both the top and bottom of the insulators have a brass or white iron zincate threaded female insert. Material is self-extinguishing V0(1.6 mm) according to UL-94 Standard, Arc resistance is >180 s - ASTM D-495, Operating temperature is -40°C to +130 °
